BVZ Asia®

COMPANY PROFILE

While the original B van Zuiden Company was first established as an agent and distributor of high quality textiles and general commodities from Europe, in 2001, with the many changes in business, the company evolved into what B. van Zuiden (Asia) Ltd is now more known for. It began focusing its efforts on distributing Sunbrella®, the world's leading outdoor fabric brand and is established as the industry standard fabric specified in particular towards the hospitality, yachting and leisure industries.

Being quite successful, BVZ Asia® also began carrying other specialty fabrics and accessories that complement its business thereby, becoming a multi-line distributor of specialty fabrics and associated products. Today, BVZ Asia® arguably holds the most extensive and strongest distribution network for Sunbrella® fabrics as well as other specialty fabrics and accessories in Asia. It has inventories in six major distribution centers: Hong Kong (head office), Guangzhou, Malaysia, Thailand, Vietnam and the Philippines. Clients can order directly from any of the offices ensuring convenient and reliable delivery.

With such a rich history, BVZ Asia® is one of the largest and oldest textile agencies housed in Asia, a company you can trust as an able partner and a reliable supplier. It is also a proud affiliate of the Industrial Fabrics Association International.

BRANDS WE CARRY

BVZ Asia® has a carefully curated range of specialty fabrics, shade solutions, and accessories that cater to the more discerning and quality-conscious clients. Here are some of them:

Sunbrella® fabrics are the flagship products of BVZ Asia.

Sunbrella fabric collections are very popular choices for casual furniture, marine and awning applications, among others. and cushions. Besides longevity and durability, Sunbrella fabrics also provide protection from the sun with the Skin Cancer Foundation's Seal of Recommendation.

Sunbrella upholstery fabrics come with a 5-year warranty while awning and marine fabrics come with up to 10 years.

Grand Cayman

Nautolex® Grand Cayman fabrics are durable upholstery fabrics finished with the easy-to-clean PreFixx® protective finish. Resistant to staining, abrasion, and scuffing, it is suited for indoor/outdoor, hospitality, hospital, spas and marine applications.

PHIFERTEX

Phifertex® fabrics are slingable fabrics that can withstand environmental elements such as the sun, water and wind. This collection comes with a 3-year warranty.

With a 5% openness factor, SunTex® 95 offers increased heat and glare control as well as daytime privacy. Engineered for exterior roller shade applications, it comes with a 10-year warranty.

Phifertex and SunTex95 are protected with Microban® antimicrobial technology: antimicrobial protection for the useful lifetime of the product.

SunTex.95

Depending on performance requirements, BVZ Asia also carries a collection of clear vinyls for various marine and weather protection applications.

Clients can choose from Strataglass, Crystal Clear 20/20 and Ultraclear.

BVZ Asia has a range of textiles for fabric structures such as Z-Net® Shade Cloth, ATEX® architectural membranes and Verseidag's Duraskin®. These products are used at many of the world's largest stadiums, recreational and institutional installations, as well as commercial spaces.

BVZ Asia also carries a range of fabrics from Dickson® custom fabrics such as Sunworker, Seaguard Flex and Alto FR.

Ask our sales representatives about available options.

Other select lines of indoor and outdoor fabrics primarily aimed to meet the stringent hospitality industry requirements are also available. These include decorative fabrics, blackouts, and FR fabrics from brands like BITEX®, SOTEXPRO® and INDETEX®.

If you have any requirements, please ask for more information.

Authentic Urecel QuickDry® foam is also available from BVZ Asia. This specialty foam is made for the outdoors and guaranteed not to rot with the built-in Ureguard® antimicrobial protection.

This product can be cut into custom shapes and sizes, as cushion inserts or pillows.

GORE TENARA® sewing thread is a long-lasting thread made from fluoropolymer that enhances the life of outdoor and marine products in which it is used. While conventional seam threads on awnings and other outdoor fabric products brittle and break after a few years, TENARA® in contrast, does not deteriorate from exposure to the elements - not even when exposed to UV radiation!

In order to help clients maintain Sunbrella® fabrics, other specialty fabrics and finished products, BVZ Asia® also carries selected 303 Care & Cleaning Products to ensure effective cleaning, unsurpassed protection, and ease of use.

Available : 303® Clear Vinyl Protective Cleaner, 303® Multi-Surface Cleaner, 303® Fabric Guard and 303® Aerospace Protectant.

tight and easy

by SUREFAS

Q-SNAP® fasteners, an invention borne out of frustration over current fasteners lacking to overcome the tension and securing aspect is also now available in Asia through BVZ. Invented and manufactured in the Netherlands, and made with 316 stainless steel, it offers tight, easy, and secure connection no matter what the angle.

CAF® 316 and Perfix® fasteners from Surefas® are also available.

EQOSHADE.

Eqoshade® offers a variety of quality shade/protection solutions at competitive prices. Each Eqoshade® system combines cutting-edge design, functionality, and ease in installation.

We only use the best specialty fabrics, hardware, and accessories available in the industry such as Sunbrella® fabrics, ATEX® architectural membranes, Duraskin® membranes, Llaza® awning systems, and TENARA® threads, among others. We work with a network of experienced contractors that provide reliable expert service throughout projects.
